Purpose of Housewrap

Housewrap serves as a dual-purpose weather barrier. It not only minimizes the flow of air in and out of a home, but also stops water and acts as a drainage plane. The unique characteristic of housewrap is that it allows water vapor to pass through it, while blocking liquid water. This permits moist, humid air to escape from the inside of the home, while preventing outside liquid water (i.e. rain) from entering the home.

When Should Housewrap Be Used?

Almost all exterior finishes allow at least some water penetration. If this water continually soaks the wall sheathing and framing members, problems such as dry rot and mold growth could occur. Housewrap stops water that passes through the siding and allows it to drain away from the structural members. In humid climates with heavy rainfall, housewrap is recommended to prevent water damage to the framing. Use in dryer climates may not be as critical, since materials are allowed to adequately dry. Housewrap also prevents air movement through the wall cavity, which is beneficial for insulating purposes.

We use Tyvek or Pactiv's GreenGaurd housewrap

CERTAINTEED MONOGRAM SIDING

(4/4 Rough Cedar or 5/5 Dutchlap Rough Cedar):

STANDARD COLOR CHOICES:

Colonial White, Sandstone Beige, Desert Tan, Savannah Wicker, Natural Clay, Cypress, Sterling Gray

Smooth-Star®

Get the look of fine painted wood and the strength of steel with a front door from our Smooth-Star Entry Door Collection. An excellent value in a fiberglass entry door, made of rugged compression-molded fiberglass with deep detailed panels that create beautiful shadows and contours on your door's surface.

This perfectly stylish, yet rugged fiberglass front door resists the dents and dings from day-to-day traffic, and will never rust or corrode.

Therma-Tru Smooth-Star Recessed Panel Entry Door

LA107WH

Classic vertical panel design in white. Molded plastic cover. Powered by a 16-volt transformer or four "D" batteries. Two-note chime for front door, single-note for second door.

Dimensions: 7 $\frac{3}{8}$ " x 9" x 2 $\frac{3}{4}$ "

Standard- Series 3000 SilverLine Double Hung Window

Series 3000
New Construction Double Hung Window

SilverLine[®]
WINDOWS • DOORS 
an Andersen Company

Series 3000 New Construction Double Hung Window (Wood Sizing)

- 1 Heavy-duty fusion-welded vinyl construction creates a strong, weather-tight window, resulting in a rating of DP-50
 - 2 Standard 7/8" insulated glass with Intercept® Warm-Edge Spacer provides comfort and energy savings
 - 3 Integral brickmold 'J' channel type siding return provides for easy trimming of the exterior siding to the window
 - 4 Dual weatherstripping provides an energy efficient, weather-tight seal
- Continuous one-piece frame option provides a clean look, as well as easier handling and installation

Easy Installation: An integral nailing fin gets the Series 3000 into your opening quickly, while a 7/8" 'J' channel siding return allows fast and neat trimming of the exterior siding to the window. Optional wood extension jambs are available for 4-9/16" and 6-9/16" construction, along with a snap-in drywall return channel.

Sturdy Construction: Heavy-duty, fusion-welded vinyl construction creates a strong, weather-tight window. Twin and triple windows feature a continuous, one-piece frame, providing even greater strength, easier handling and faster installation.

Energy Efficient: Multi-chambered vinyl construction insulates as well as, or better than, other window materials. Several glazing options are available to provide comfort in virtually any climate. The Series 3000 is ENERGY STAR® qualified in all 50 states with optional LoE² Glass.

Attractive Look: A sturdy, continuous frame provides a virtually seamless appearance, and an attractive colonial profile gives the Series 3000 the look of detailed craftsmanship.

Proven Performance: Performance tested to stand up to extreme weather conditions. Certified to the specifications established by the American Architectural Manufacturers Association (AAMA).

Also available as an Impact Resistant Window 

Limited Lifetime Warranty

Extension Jamb

An interior access channel allows the use of three different extension jamba: 4-9/16" for 2 x 4 construction, and 6-9/16" for 2 x 6 construction. A snap-in return for drywall applications allows for fast installation and a clean, professionally finished job.

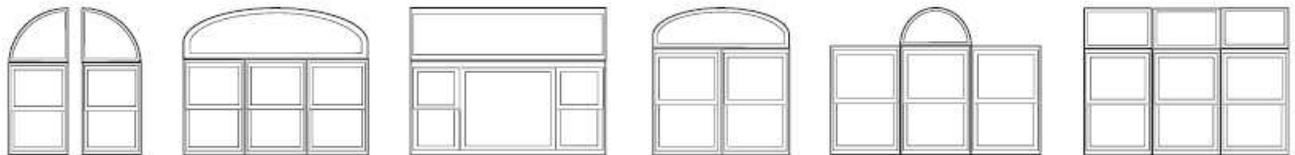

Geometric Shapes

Including geometric shapes and picture windows will enhance the other window designs in your home, while giving it a unique style, adding light from new refreshing angles, and bringing natural comfort to your surroundings.

Design Flexibility

Our complete product line of double hungs, picture windows, transoms and geometric shapes can be combined in numerous ways. With so many window styles and sizes available, the design possibilities are virtually endless. Silver Line's® mulling systems feature strong, durable mullions, allowing you to mull and stack windows in numerous configurations.

The NFRC label provides the U-Factor and Solar Heat Gain Coefficient ratings of a window. The lower the U-Factor, the more you'll save on heating bills. A low SHGC rating will help save on cooling costs.

The Series 3000 Double Hung Window has been tested and certified to NFRC standards for energy efficiency.

Glass Type	U-Factor	SHGC
Clear	0.48	0.62
LoE ²	0.35	0.32
LoE ² /Argon	0.31	0.32

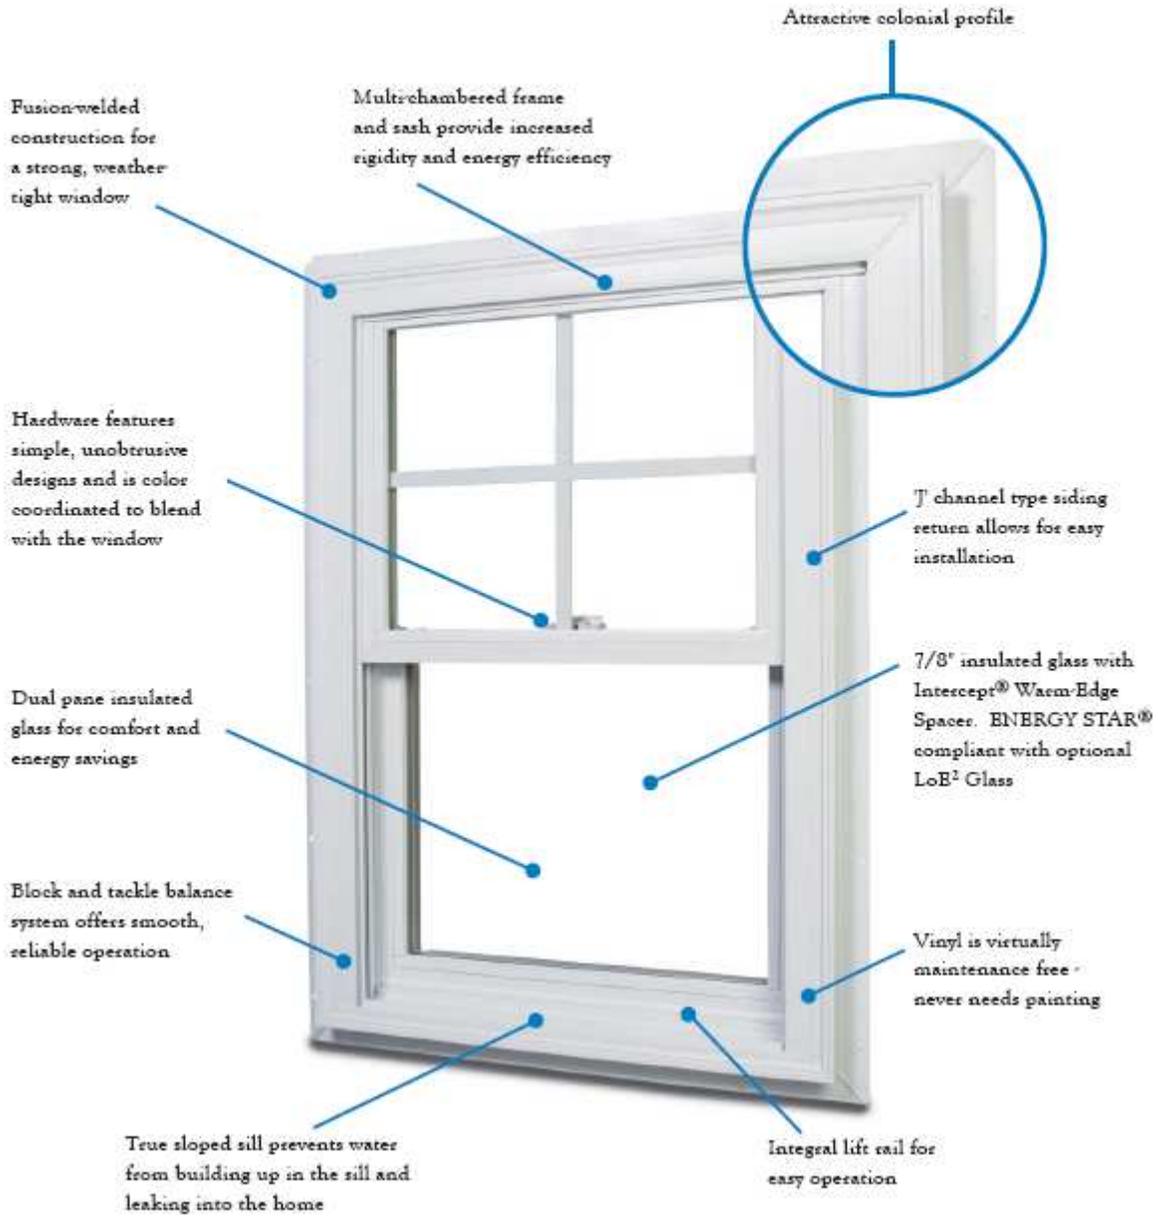

AAMA is a nationally recognized authority, developing voluntary standards to test and validate the structural performance of windows, doors and skylights.

The Series 3000 has been tested and certified to AAMA design pressure (DP) standards. The higher the DP rating, the stronger the window.

Window Size	DP-Rating
34" x 65"	DP-50
38" x 65"	DP-45
108" x 77"	DP-35

Series 3000

State-of-the-art window technology is hard at work providing durable, energy efficient performance in low maintenance vinyl construction.

Series 3000 New Construction Double Hung Window Sizes - Nominal, Actual and Rough Opening Sizes

Nominal Size	1/8		2/0		2/4		2/8		3/0		3/4		3/8

5/6	68 3/4"	69 3/4"															
6/2	76 3/4"	77 3/4"															

NOTES:

- clear opening of 5.7 sq. ft. or greater
clear opening width of 20" or greater
clear opening height of 24" or greater
- Unit dimension is inside frame dimension, not including nailing fin
- Window elevations are shown with optional grille patterns. Grille patterns shown are standard grille patterns for appropriate window sizes
- 5/6 height windows also available as "cottage style" windows (unequal sash). Top sash is shorter than the bottom sash
- 6/2 height windows also available as "oriel style" windows (unequal sash). Bottom sash is shorter than the top sash

Continuous, One-Piece Frame

Twin, triple and combination windows are offered with a continuous, one-piece frame and common intermediate jamb(s). This provides a more attractive window, that is easier to handle and install. The continuous frame feature also reduces labor by eliminating the mulling of separate windows at the job site.

Glass Options

Silver Line® offers several types of glass for just about any requirement. From energy savings, to sound control, to privacy, one of our many choices is sure to meet your needs.

Energy Saver LoE² Glass - Reduces heating and cooling costs while keeping your home more comfortable all year long. Also reduces fading to window treatments, furniture and floor coverings caused by harmful UV rays.

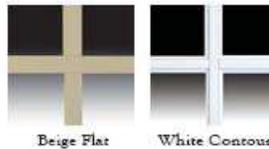

Other Glass Choices Include:

- Tempered Glass
- Tinted Glass
- Obscure Glass
- Laminated Glass
- LoE² Glass/Argon Gas

Grille Options

Maintenance Free Grilles - Grilles are sealed inside the glass unit, providing the look of muntins without the difficulty of cleaning them. Choose from two different grille types: flat or contour grilles. Several grille patterns are available, including Colonial, Prairie and Diamond.

Color Options

All Silver Line vinyl windows are available in white and beige. The color is consistent throughout the vinyl window frame and sash, making scratches virtually invisible.

For color matching purposes, request a color chip. Colors reproduced as closely as printing will allow.

Interior Doors and Trim

GET THE DOOR THAT ENDURES

- Offers consistent quality throughout the home
- Engineered wood designs outperform wood doors while offering superior value
- Resists cracking, splitting, shrinking and joint separation
- Long-lasting with low maintenance
- Make doors a more profitable upgrade by offering the full CraftMaster line

Made from molded high-density fiberboard, CraftMaster doors resist shrinking, swelling, cracking and joint separation. Engineered wood design outperforms wood doors while offering superior value.

SPECIFY THE DOOR THAT MAKES THE GRADE

- Tested for water resistance, adhesion and overall durability to ensure product quality
- CraftMaster doors can be specified in 1 3/8" and 1 3/4" thicknesses
- All 1 3/4" thick CraftMaster doors can be manufactured to meet 20- and 60- minute fire ratings as per Warnock Hersey specifications

MAKE A SOLID CHOICE

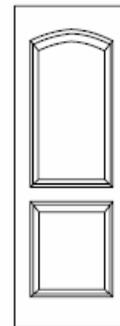

- For the heft and sound-deadening properties of solid wood, specify solid core construction
- CraftMaster doors are available with solid core construction

EASY ON THE OUTSIDE

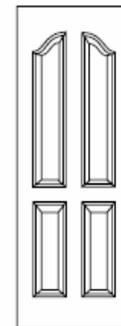

No old growth timber is harvested for the manufacture of CraftMaster designs. Instead, by-products from sawmill operations are used to convert wood chip waste into a design of true beauty.

TOUGH ON THE INSIDE

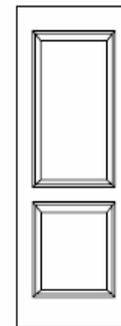

CraftMaster products are manufactured using advanced molded panel technology, wood fiber, and environmentally safe resins to create precisely engineered wood products that perform better than solid wood counterparts. A CraftMaster door facing is made from an engineered wood fiber mat that is molded under intense heat and pressure into an 1/8" (3.2mm) thick sheet of high-density fiberboard. The result assures consistent quality from door to door, room to room, home to home.

Bar Faucet
 Lever handle
 2.2 gpm (8.3 L/min) max.

Corian® Small Sinks

Corian® single sinks are compact yet functional. Use one by itself, or in combination with other Corian® sinks. Sinks are available in a number of colors to complement any design.

Corian® Large Sinks

For spacious styling, a large, single Corian® sink is a popular choice. Select one to use alone or in any sink combination.

Corian® Double Sinks

Double the sink means double the workspace. And these models go beyond practical, with a contemporary style and elegance to complement your design.

Corian® Bathroom Sinks

Corian® bathroom sinks provide beauty, functionality, durability, stain resistance and easy care through years of use. And because Corian® is nonporous, it won't promote the growth of mold or mildew. A variety of colors and styles will inspire your creative side.

Corian® Tubs and Showers

When you're looking for fast, easy installation, here's your answer: Corian® Ready-To-Install Tub and Shower Surrounds. You can even install them over sound, existing tile. There's no grout to scrub, which makes for easy care. A semi-gloss finish reduces visible water spotting, while curved corners eliminate hard-to-clean crevices. Convenient shelves hold soap and shampoo.

Corian® Vanity Tops & Bowls

An integral covered backsplash and a thick front edge treatment provide a custom look in models made to fit more than 30 standard cabinet sizes. Recessed faucet decks catch and guide water overflow back into the bowl. And vanity tops flow seamlessly into bowls, eliminating trapped dirt and germs.

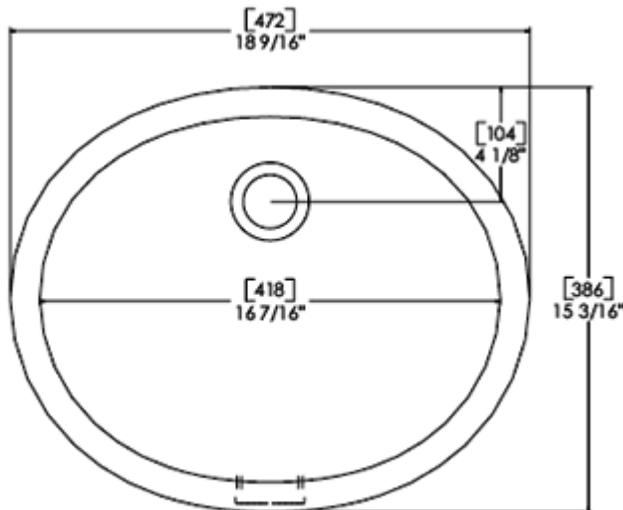

#810 Corian Single Bowl Sink

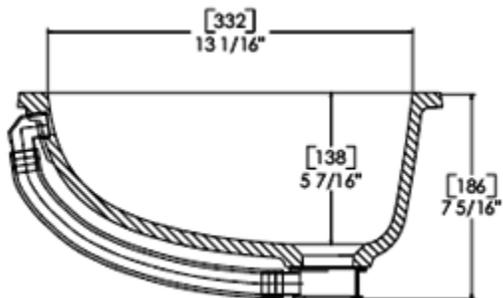

Colors:

-  Bisque
-  Cameo White
-  Glacier White
-  Natural Pearl
-  Vanilla

Upgrade Formica Etchings *(textured finish)*

Sand Crystal 3517-46, Travertine 3526-46, Azul Granite 3525-46, Rosso Granite 3917-46, Ubatuba Granite 7733-46, Portico Marble 7735-46, Tuscan Marble 7736-46, Blackstone 271-46, Blk Faux Marble 754-46, Flint Crystal 3518-46, Silica Quartzline 3519-46, Baltic Granite 3691-46, Bottlegreen Quartzlite 3520-46, Lava Quartzlite 3521-46, Giallo Granite 3523-46

Profile 677 with Formica bevel (standard)

Upgrade Profiles:

Profile 677 with a different color bevel edge

Profile 100 Square Edge

Profile 211 with Oak, Maple, Cherry or Solid Surface Bevel

Profile 433 with Oak, Maple, Cherry or Solid Surface Ogee Edge

Post-Form

Note: Formica countertop edge upgrades do not include the backsplash. The backsplash will have a square edge. For an additional charge a wood edge profile or a Formica bevel edge can be added to the backsplash, however, solid surface material (Corian, etc.) is not an option for backsplash edging.

Rounded corners are available on Formica tops with wood edge profiles and solid surface edge profiles (Corian, etc.). The countertop rounded corner minimum radius is 3". Clipped (angled) corners must be used instead of rounded corners on Formica tops with a Formica bevel.

Post formed countertops are not recommended since repairs are difficult if not impossible and any damage usually involves replacement of the entire countertop.

Wilsonart Premium Laminate Colors (textured finish)

Deepstar Bronze

1814-35

Premium Laminate

The warmth of burnished bronze and old gold blended together for a mid-value sophisticated neutral.

Deepstar Jade

1816-35

Premium Laminate

Tones of green from slate, foliage, and gems, combine to form an oasis of color. Hints of old and new balanced in a fresh interpretation.

Deepstar Slate

1818-35

Premium Laminate

Shadowed hues of deep blues and browns are combined to create this organic black.

Deepstar Mineral

1817-35

Premium Laminate

A blend of sienna, copper, and rust, this bittersweet combination is reflective of the unexpected color and complexity of sedimentary rock, and its organic influences.

Deepstar Glaze

1813-35

Premium Laminate

This neutralized combination of gold, brown, and beige offer a sense of familiarity in softened tones, essential to the category.

Deepstar Flint

1811-35

Premium Laminate

Blue is transformed into an organic feel with the incorporation of taupes and brown to neutralize it.

Deepstar Agate

1815-35

Premium Laminate

Deep Khaki and aged bronze hues mixed with iron and ore to recreate the rustic interpretation of age-old and timeless materials.

Deepstar Fossil

1812-35

Premium Laminate

Mid-tone warmth of amber and orange is shadowed with deep charcoal and sienna to reflect the unexpected surprise of nature's ability to offer strength in color.

Range Hood- Allure I

Standard- 30" (QS130)

Upgrade-36" or 42" (QS136/QS14)

Standard Colors—White, Biscuit, Almond, Black, and Stainless Steel

Quiet 1.5 Sones at normal speed, 220 CFM high setting.

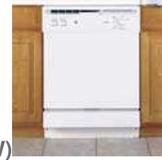

Fully enclosed design for easy cleaning. Standard large filters, dishwasher safe. Two-level light setting; dual halogen lamp design. **Bulbs not included.**

The quietest range hood in it's category, with the revolutionary performance and the brilliance of halogen lighting.

DISHWASHERS

GE Nautilus™ Built-In Dishwasher.....(GSD3200JWW)

Model#: GSD3200J

Available in: white (WW), stainless steel (GSD3260JSS), bisque (CC) or black (BB)

- Trimless Door Design — Features sleek, classic panels for an instant built-in look
- PowerScrub™ wash system — Cleans thoroughly with two wash arms
- HotStart™ Option — Preheats water before the main wash cycle for dependable performance every time
- Piranha™ Hard Food Disposer — Grinds leftover food into small particles that are easily washed away
- Deluxe Upper Rack — Includes a deep, tiered upper rack
- [QuietPower™ I Sound Package](#) — Softens the sound of the dishwasher, for a more peaceful kitchen

GE® Tall Tub Built-In Dishwasher.....(GLD4200MCC)

Model # GLD4200M

Available in: white (WW), stainless steel (GLD4260MSS), bisque (CC) or black (BB)

- Full-Length Flat Door — Blends almost seamlessly with adjacent cabinetry
- Giant Tub with Deluxe Capacity Racking — Washes up to 14 place settings at once
- HotStart™ Option — Preheats water before the main wash cycle for dependable performance every time
- 6-Level BrilliantClean™ Towerless Wash System — Quietly and efficiently powers dishes clean using remarkably less water and energy; 6 wash levels and three wash arms direct water onto dishes just where it's needed
- QuietPower™ 1 Sound Package — Runs quietly and effectively, with insulation that keeps sound sealed inside
- China/Crystal Cycle — Protects delicate dishes and glassware by lowering the water temperature during the cycle

GE® Built-In Dishwasher.....(GSD2200GBB)

Model#: GSD2200G

Available in: white (WW), bisque (CC) or black (BB)

- Trimless Door Design — Features sleek, classic panels for an instant built-in look
- QuietDesign™ sound package — Reduces washing noises with a blanket of insulation and the GE QuietPower™ motor
- [Deluxe Lower Rack](#) — Features curved tines to accommodate stoneware, large plates or broiler pans
- Deluxe Silverware Basket — Provides convenient space and capacity to clean silverware efficiently and effectively
- HotStart™ Option — Preheats water before the main wash cycle for dependable performance every time
- Heated Dry Option — Circulates warm air to quickly and gently dry dishes

GE® Tall Tub Built-In Dishwasher.....(GLD5500LWW)

Model#: GLD5500L

Available in: white (WW), stainless steel (GLD5560LSS), bisque (CC) or black (BB)

Giant Tub with Super Capacity Racking — Washes up to 15 place settings at once, with room for cookie sheets, platters and other tall items

Two Utility Shelves in Upper Rack, Silver — Flip down to provide an extra shelf for small items

SaniSensor™ — Continually measures water temperature to sanitize dishes

Electronic Controls with 5 Cycles/4 Options — Make it simple to select from a wide range of wash cycles

QuietPower™ 2 Sound Package — Keeps sound inside where it belongs, wrapping the dishwasher in a full blanket of insulation

2/4/8-Hour Delay Start — Makes it easier than ever to wash dishes at any hour taking advantage of reduced energy rates or washing dishes even when the family is asleep

GE® Tall Tub Built-In Dishwasher.....(GLD6500LBB)

Model#: GLD6500L

Available in: white (WW), stainless steel (GLD6560LSS), bisque (CC) or black (BB)

GE Giant Tub with Maximum Capacity Duron™ Racking — Washes even the largest cookware in durable, polymer-coated racks that will hold up to heavy use

Four Utility Shelves in Tiered Upper Rack with StemSafe™, Silver — Adds an extra level for stacking small items and allows for washing tall items in the upper and lower rack simultaneously

6-Level BrilliantClean™ Towerless Wash System with CleanSensor™ — Scrubs dishes clean with three full-sized wash arms, six levels of wash action and a sensor that continually monitors and adjusts the wash cycle for a superior clean

Light-Touch Electronic Controls with 6 Cycles/4 Options — Require only gentle pressure to start your preferred cycle; wipe clean easily

Countdown display with 1-9 hour Delay Start — Signals remaining cycle time and makes it easier than ever to wash dishes at any hour, taking advantage of reduced energy rates or washing dishes even when the family is asleep

QuietPower™ 3 Sound Package — Dramatically reduces the sound of washing the dishes

GE Profile™ Built-In Dishwasher(PDW7880JSS)

Model#: PDW7800J

Available in: stainless steel (PDW7880JSS), bisque (CC), white (WW) or black (BB)

[One-Piece Color Wrap Contour Door](#) — Provides a rich contemporary look in any kitchen

Nylon racks with color-matched components —

Holds tall and oversized items; washes 16 place settings at once

Four-Position Adjustable Upper Rack — Moves up, down and diagonally for maximum loading flexibility

100% Fold-down tines in lower rack — Provides maximum loading flexibility in the lower rack

QuietPower™ 4 Sound Package — Adds extra insulation to keep the kitchen extra quiet

GE® Tall Tub Built-In Dishwasher.....(GLD5500LBB)

Model#: GLD5500L

Available in: stainless steel (GLD5560LSS), bisque (CC), white (WW) or black (BB)

Washes up to 15 place settings at once, with room for cookie sheets, platters and other tall items
 Two Utility Shelves in Upper Rack, Silver — Flip down to provide an extra shelf for small items

Water Heaters

PROLINE[®]

RESIDENTIAL ELECTRIC

6-Year Tank Warranty

6-Year Parts Warranty

- **Fused Ceramic Shield**

A tough, thick durable coat of blue cobalt ceramic is fused to the tank's interior surfaces at 1600°F, forming a corrosion-resistant lining for years of dependable protection and use.

- **Dual Heating Elements**

Screw-in, direct immersion, 4500-watt, 240-volt heating elements for maximum efficiency. Available in multiple wattages and voltages for every job.

- **Non-CFC Foam Insulation**

The tank is surrounded by a thick coat of non-CFC polyurethane foam to trap heat inside the tank, saving energy.

- **Dip Tube**

Carries cold inlet water deep into the tank to minimize temperature dilution of hot water.

- **T&P Valve**

Conveniently located on the side of the tank to facilitate piping to a drain or external to the building. Also available with top T&P opening for field-installed top T&P valve.

- **3/4" Water Connections**

Located on top.

- **Anode Rod**

Top-mounted, heavy-duty anode for added tank protection, extending the life of the tank.

- **Built-In Electric Junction Box**

Top-located, convenient junction box, ready for 1/2" or 3/4" conduit.

- **Thermostat/High Limit Control**

Combination control allows adjustment of water temperature while preventing overheat protection.

- **Code Approvals**

Listed to UL 174, 1987 NAECA 2004 requirement, BOCA and ASHRAE 90.1-1999. All models are certified at 300 PSI test pressure and 150 PSI working pressure.

- **Drain Valve**

Child-resistant, corrosion-resistant drain valve.

MADE IN USA

6-Year Limited Tank Warranty

Heavy gauge steel is automatically formed, rolled and welded to assure continuous seams for Fused Ceramic Shield lining. Each tank is triple tested to ensure quality.

6-Year Parts Warranty

Original factory parts warranted for 6 years.

Warranty Information:

Custom Building Systems, LLC warrants its product for one (1) year (from the date of delivery) from concealed structural damages or defects. Custom Building Systems, LLC also enrolls every house in a ten (10) year limited warranty program with 2-10 Home Buyers Warranty. There will be an information packet forwarded to the homeowner. The information contained in this packet instructs the homeowner on what is an allowable claim. The information packet will also contain a list of industry-accepted tolerances on items throughout the home and how to submit a claim to the Home Buyers Warranty.

****All appliances and fixtures supplied by Custom Building Systems, LLC are covered by their own individual manufacturer's warranties.**

Reminder to Builders:

Custom Building Systems, LLC manufactures its homes to meet rigid specifications, including the BOCA, CABO and the standard state building codes when applicable. Although we design our products to meet most local building codes, due to circumstances beyond our control we cannot guarantee that we meet all local code requirements. For specifics, the builder should refer to his local building inspector and to Custom Building Systems, LLC's complete specifications.

****It is the builders responsibility to inform Custom Building Systems, LLC in writing of any special requirements needed in his local area.**
